URBAN FORESTRY AT VIRGINIA TECH

Promoting sustainable urban forests through education and research

WHAT IS URBAN FORESTRY AND ARBORICULTURE?

Urban forestry is the stewardship of community trees, which enhance the quality of life in our towns and cities and promote a sustainable environment.

Arboriculture is the art and science of selecting, establishing, and maintaining landscape trees.

WHY CHOOSE A CAREER IN URBAN FORESTRY AND ARBORICULTURE?

Urban foresters and arborists find working with people and trees rewarding. Their careers are typically outdoor oriented and often involve culturally significant trees.

Where are urban foresters and arborists employed?

- Municipal Government
- Private Industry
- Consulting
- Government Agencies
- Public Gardens
- Education & Research

WHY CHOOSE VIRGINIA TECH?

Virginia Tech is a nationally recognized leader in natural resources education and research. At Virginia Tech, there are also numerous opportunities for extracurricular activity and outdoor recreation.

Areas of educational emphasis:

- Tree Biology
- Soil Science
- Ecology
- Arboriculture
- GIS
- Policy and Planning
