

FOREST INVENTORY INTERNSHIPS MOLPUS TIMBERLANDS MANAGEMENT

Molpus Timberlands Management, LLC (MTM), a timber investment management organization based in Hattiesburg, Mississippi, is seeking to hire summer interns for a forest inventory project. The project will be based out of Middlesboro, Kentucky on approximately 150,000 acres of timberland managed by MTM in eastern Kentucky and Tennessee. Duties will include timber inventory and stand boundary verification. Interns will be paid \$12-14/hour based on qualifications with the potential for a performance bonus. Work weeks will consist of 4 ten-hour days over a 13-week period (May 18th-August 14th).

Interns must be willing to work in a team setting over challenging terrain and weather conditions. Interns will gain valuable field measurement experience and exposure to timberland management. Qualifications include completion of forest mensuration and dendrology coursework for those seeking Bachelors or Associates Degrees in Forestry or Natural Resources. Forestry students attending summer field camp may apply to work a portion of the internship. Recent graduates are also encouraged to apply.

Interested parties should send a cover letter, resume, and a copy of their transcript to:
