

America's Freshwater Fauna

POSTERS, VIDEOS, AND PUBLICATIONS

- Full-color 24x36 **posters** of America's nongame fishes, mussels, snails, crayfishes, and aquatic insects depict the diversity and beauty of native species for the public and for professional biologists.
- Color 30-minute **videos** of America's nongame fishes, mussels, and crayfishes are available. They describe the diversity, biology, and plight of some of these species, and their need for habitat protection, restoration, and conservation.
