Our signatures below confirm that each of us participated in the mapping activities involving the Dedy Forest cut.

Each of us were present for the marking and photography of the 11.9 km main road of this timber exploitation (DP1-DP24). Each of us participated in the walking and mapping of the secondary and tertiary roads of this system (DS1-DS3). Lastly, each of us participated in the counting and identification of timber products along this road. Therefore, we recognize as valid the notes contained in this data book.
